## Official Public Declaration and Clarification

**Date: January 10, 2026 Subject: Clarification Regarding Unauthorized Activities and Name Similarity**

**To our Valued Customers and the General Public,**

It has recently come to our attention that several reports and accusations regarding fraudulent financial activities and scams have been circulating on the internet. These reports involve entities operating under names similar to ours. We are issuing this formal declaration to clear any confusion and protect the interests of our users and the public at large.

**Mallu Finance unequivocally states that we have no association, involvement, or acknowledgment of these alleged scams.** We understand that name similarity can lead to unfortunate misunderstandings; however, we wish to clarify that any fraudulent operations reported online are being conducted by third parties who are entirely unrelated to our platform. We have never participated in such activities in the past, nor will we ever be involved in such practices in the future.

### Our Role and Business Model

To ensure complete transparency, it is vital to understand the nature of our services. **Mallu Finance is not a bank, a Non-Banking Financial Company (NBFC), or a direct lender.** We do not provide loans, credit products, or any direct financial services to the public.

Our platform functions exclusively as a **digital bridge**. We act as an intermediary, connecting users with legitimate, **RBI-regulated institutions**, including established banks and registered NBFCs. Our primary goal is to provide a transparent interface where users can discover authorized financial products offered by licensed entities.

**We take these scam accusations very seriously as they target the trust we strive to build. We are currently cooperating with relevant authorities to monitor any misuse of our brand name and to ensure that those attempting to malign our reputation or defraud the public are held accountable.**

**The trust of our users is our highest priority. We remain committed to maintaining a secure and honest platform that simplifies the connection between you and India's regulated financial sector.**

**Sincerely,**

**The Management Team Mallu Finance**
